

Sterling Computers Named to 2018 CRN Fast Growth 150 List

Ranking Recognizes Thriving Solution Providers in the IT Channel

Dakota Dunes, SD, August 6th, 2018 – Sterling Computers Corporation, an industry-leading technology solutions provider, announced that CRN®, a brand of The Channel Company, has named Sterling to its 2018 Fast Growth 150 list. This year, the South Dakota-based technology company earned #130.

The list is CRN’s annual ranking of North American technology integrators, solution providers, and IT consultants that have experienced significant economic growth over the past two years. The 2018 list is based on an increase of gross revenue between 2015 and 2017. The companies recognized this year represent a remarkable combined total revenue of more than \$50 billion.

“Any time a company experiences growth, whether big or small, it’s the result of the team coming together and working toward a common goal,” said Brad Moore, President and CEO. “Sterling is no exception. A strategic effort on the part of our staff has allowed us to expand, innovate, and serve our customers better than ever before.”

“CRN’s 2018 Fast Growth 150 list features companies that are growing in an ever-changing, challenging market,” said Bob Skelley, CEO of The Channel Company. “As traditional solution providers are moving toward a services-focused business model, this extraordinary group has been able to successfully adapt, outperforming competitors and proving themselves channel leaders. We are pleased to recognize these organizations and look forward to their continued success.”

The complete 2018 Fast Growth 150 list is featured in the August issue of CRN and can be viewed online at www.crn.com/fastgrowth150.

About Sterling | (www.sterlingcomputers.com)

Sterling is an award-winning technology solutions provider with over 22 years of experience helping customers solve the most complex requirements of their IT environments.
