

## **Sterling Unveils State-of-the-Art Solution Center**

*Technology Reseller Reveals Technical Demo Lab*

**North Sioux City, SD, December 16, 2020** – Sterling, an award-winning technology reseller, has unveiled an ultramodern solution center housed within their North Sioux City, SD headquarters. Known as the Client to Cloud Solution Center, this high-end technical demonstration lab offers an innovative virtual setting in which Sterling's solutions architects supply test runs of the cutting-edge technology solutions from the market's top Original Equipment Manufacturers (OEMs).

The Sterling Solution Center provides direct access to cutting edge technologies that can transform the way an organization does business. Some of the highlighted OEMs and their solutions include:

### **VMware Solutions**

- **NSX**
- **VMware vRealize Suite**
- **VMware Tanzu**
- **VMware Horizon 8**

### **Dell Technologies Solutions**

- **Dell VxRail**
- **Dell PowerScale**
- **Dell PowerStore**

### **CommScope Ruckus**

### **HP Enterprise Servers**

### **Red Hat Solutions**

- **Red Hat Ansible**
- **Red Hat OpenShift**

### **Intel Optane**
